8010 Graz  
Austria

## **Confirmation of the use of the e-signature (“Amtssignatur”) for final documents at the Medical University of Graz**

The official signature is a legally valid signature that is affixed to digital documents. It clearly indicates that the document is the original document issued by an Austrian authority. Official documents at the Medical University of Graz are also provided with an electronic official signature. The issuance of the Diploma Supplement in officially signed electronic form had to be implemented by October 1, 2023 due to legal requirements in Austria. (Universitäts- und Hochschulstatistik- und Bildungsdokumentationsverordnung - UHSBV, BGBl. II Nr. 301/2022). At the Medical University of Graz, all graduation documents of the regular fields of study have been officially signed since October 1, 2023 and are sent electronically to the student.

All persons who receive these documents can check the origin and authenticity of an official signature in the document free of charge at:

[https://www.rtr.at/TKP/was\\_wir\\_tun/vertrauensdienste/Signatur/signaturpruefung/Pruefung.de.html](https://www.rtr.at/TKP/was_wir_tun/vertrauensdienste/Signatur/signaturpruefung/Pruefung.de.html).

For more information, please visit our website: <https://www.medunigraz.at/amtssignatur>.

The digital documents can be sent directly to authorities electronically, and printouts also have the probative value of a public document in accordance with § 20 E-GovG. Documents with an official signature can therefore also be submitted to authorities and other institutions as originals.
