

Doctoral Programs at the Medical University of Graz

FIRST-CLASS EDUCATION FOR FUTURE RESEARCHERS

The Medical University of Graz trains the next generation of scientists in medicine, life sciences, and nursing. Our doctoral students benefit from:

- Excellent mentoring & modern research facilities
- Interdisciplinary training (seminars, workshops, journal clubs)
- International networking in a collaborative environment

OUR PROGRAMS

1. **INTERNATIONAL PHD PROGRAMS** – 3–4 years, basic & translational research, funded & employed
2. **DOCTORAL STUDIES OF MEDICAL SCIENCE** – research alongside professional employment, focused on biomedical & clinical science
3. **DOCTORAL STUDIES OF NURSING SCIENCE** – advancing nursing research & evidence-based healthcare

PHD PROGRAM IN MOLECULAR MEDICINE

Core program focusing on cellular and molecular disease mechanisms – from diagnosis to new treatment strategies.

Learn more about our current spin-off PhD programs and their research activities on our website.

DOC SCHOOLS IN MEDICAL SCIENCE

- Lifestyle-Related Diseases (LIFEMED)
- Molecular Medicine & Inflammation (MMI)
- Musculoskeletal System & Oral Health (MSOH)
- Neuroscience
- Sustainable Health Research (SHR)
- Translational Molecular & Cellular Biosciences (TMCB)

Learn more about the research foci and communities of the Doc Schools on our website

DOCTORAL PROGRAM NURSING SCIENCE

Detailed information on dissertation topics and admission requirements is available on our website.

ADMISSION PHD

- International 3-step selection process (application, online interview, hearing)
- Requirements: Master's/diploma in medicine, life sciences, or related fields | Scientific interest | English C1 | Excellent recommendations

ADMISSION DOCTORAL PROGRAM IN MEDICAL SCIENCE

- Application for peer-reviewed dissertation topic announced in the data base for dissertation topics (MUGthesis)
- Requirements: Master's/diploma in medicine, life sciences, or related fields | Scientific interest | English C1 | admission interview
